### Manners of Smokers.

Smokers have all sorts of peculiar tricks and oddities. One man had the trick of constantly knocking off the ashes with his little finger. He would keep that little finger wagging continually, and when there were no ashes he would burn his finger. But it was a habit which he seemed wholly unable to overcome.

Some men seem to find an inexplicable delight in making chimneys of their noses, and sending the smoke in volumes through those orifices.

Another man had a singular trick of shutting one eye to look along his cigar with the other as he put it into his mouth. The peculiar habits of smokers will sometimes run through a whole family.

"A man came to me in my office one day," says a writer, "and represented himself as a brother of an old friend of mine. He was a shabby, forlorn-looking specimen, and I was not inclined to believe his story, especially as there was no personal resemblance to his brother.

"He told a plausible story, but I was still inclined to disbelieve him, and finally I told him to clear out, and that I couldn't be bothered with him.

"Then my better feeling came to the front, and I gave him a cigar. He took it with a sad, forgiving smile, and lit it. He hadn't taken but one puff before I was on my feet begging his pardon.

"After taking that puff he had taken out his cigar with a peculiar jerk, and blown the smoke out of the corner of his mouth in a manner which I had noticed and laughed at over a hundred times when, with his brother, I saw him do it. I knew then that I was not being imposed upon."

There is nothing gained by being too bashful; and the inserter of the subjoined advertisement certainly does not need to be told so: "A poor student requests some generous and noble-minded person to advance him a sum of money to purchase a bicycle, with a view to reducing his embonpoint. Address, A. V., at the office of this paper."

# National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 3000 tons. This is fully 10 percent more than the best work of former years.

"The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company.

"And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 75 to 78 percent, according to quality.

"I continue to find the megass from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoons.

"The shredder and engine require very little care or attention."

Plans and specifications of these Shredders may be seen at the office of
